## SUMMARY

Motivated BCA undergraduate with a strong passion for Python programming, web development, and AI/ML technologies. Experienced in building web applications using Flask, and developing projects ranging from EMI calculators to interactive games and data-driven platforms. Skilled in designing user-friendly interfaces, integrating databases, and applying machine learning concepts to real-world problems. Eager to innovate and contribute to tech-driven solutions with a focus on practical, impactful development.

## EXPERIENCE

### Web Developer

Shree Mahaveer Granite

August 2024 – August 2024, Gota, Ahmedabad

- Built and deployed an SEO-optimized website for Shree Mahaveer Granite, helping the business rank on Google and connect with potential customers through a modern online platform.

### Student Intern

KN UNIVERSITY

June 2024 – July 2024

- Engaged as a student intern at my university, contributing to industry-aligned projects involving data analysis and monitoring, while developing strong practical skills in data management and tech applications.

## PROJECT

### Sports-Cub Website

[usport.onrender.com/](https://usport.onrender.com/)

- Developed and deployed a dynamic sports club website using Flask, featuring responsive design, event listings, service details, and contact integration to enhance user engagement and online visibility.

### Number Guessing Game

Entertainment

- Created an interactive Number Guessing Game using Flask, HTML, CSS, and JavaScript—featuring random number generation, hint-based guidance, attempt tracking, and input validation to deliver an engaging user experience.

### TO-DO List

- Developed a To-Do List web application using Flask, allowing users to create, update, and delete tasks for effective task management.

### EMI CALCULATOR

[uday-emi.onrender.com/](https://uday-emi.onrender.com/)

- Built a dynamic EMI Calculator using Python Flask that computes monthly loan installments based on user input for principal, interest rate, and tenure.

## EDUCATION

### Bachelor of Computer Application

Minor in Data Science • KN UNIVERSITY • Gota, Ahmedabad • 2027

### HSC (Science with Maths)

K.R.RAVAL School • Ranip, Ahmedabad • 2021 • 78%

- Dedicated and high-achieving Science student with a strong academic background in the science stream

### SSC

K.R.RAVAL School • Ranip, Ahmedabad • 2019 • 84%

- Achieved over 80% in SSC with a strong academic foundation, particularly in life sciences.

## CERTIFICATIONS

### Complete Python Course: Beginner To Advance

Udemy • 2025

### python And Flask Framework Complete Course

**SKILLS**

---

Programming Languages: Python, Java, C++, C, HTML5, CSS, JavaScript, PHP

Frameworks & Libraries: d-jango , Flask

Databases: MySQL

---
