SUMMARY

Motivated BCA undergraduate with strong expertise in Python, Flask-based web development, and AI/ML concepts. Experienced in building scalable web applications, data-driven platforms, and interactive projects with database integration. Passionate about applying machine learning and backend development skills to solve real-world problems and deliver impactful, technology-driven solutions.

EXPERIENCE

Junior Software Developer

Vaxa Infotech

May 2025 - July 2025, Ahmedabad

- Contributed as **Junior Software Developer** and **AI/ML Intern** by developing POCs for future projects and products. Gained practical experience in **Python**, **Flask framework**, and **ChatGPT** while collaborating to evaluate **AI/ML** use cases and solution viability.

Web Developer

Shree Mahaveer Granite

August 2024 - August 2024, Ahmedabad

- Built and deployed an **SEO-optimized** website for **Shree Mahaveer Granite**, helping the business rank on Google and connect with potential customers through a modern online platform.

Student Intern

KN UNIVERSITY

June 2024 - July 2024, Gota, Ahmedabad

- Engaged as a **student intern** at my university, contributing to industry-aligned projects involving **data analysis** and monitoring, while developing strong practical skills in **data management** and tech applications.

PROJECT

Sports-Cub Website

usport.onrender.com

- Developed and deployed a dynamic sports club website using Flask, featuring responsive design, event listings, service details, and contact integration to enhance user engagement and online visibility.

Flask Mini Projects Hub

flask-hub-capt.onrender.com • March 2025 - April 2025

- Flask-based project showcases multiple mini web applications created using **Python**, **Flask**, **HTML**, **CSS**, and **JavaScript**.

Resume Parsing

Vaxa Infotech • May 2025 - June 2025

- Automated** resume screening and candidate shortlisting, reducing manual HR effort and improving hiring decision efficiency through **NLP-driven data extraction** and ranking logic.

Robotic Interview System

Vaxa Infotech • June 2025 - July 2025

- Built an **AI-driven interview automation system** using Python and Flask to conduct and evaluate candidate interviews post-resume shortlisting.
- Implemented **semantic similarity**, **keyword analysis**, and **knowledge-based validation** with real-time scoring dashboards, enabling scalable, unbiased, and standardized candidate assessment.

EDUCATION

Bachelor of Computer Application

Minor in Data Science • KN UNIVERSITY • Gota, Ahmedabad • 2027

HSC (Science with Maths)

K.R.RAVAL School • Ranip, Ahmedabad • 2021 • 78%

- Dedicated and high-achieving Science student with a strong academic background in the science stream

SSC

K.R.RAVAL School • Ranip, Ahmedabad • 2019 • 84%

- Achieved over 80% in SSC with a strong academic foundation, particularly in life sciences.

SKILLS

Programming Languages: Python (Core), JavaScript (ES6+), Java

Frameworks & Libraries: Flask, React, Tailwind CSS

Databases: MySQL

Version Control: Git
